BIG-T

MEDAN, NORTH SUMATRA

• UNDERGROUND HIP-HOP

ARTIST PROFILE

BiG-T — The Mic Mechanical MasterMind

Born and raised in Medan 061, BiG-T is a nightclub MC and hip-hop artist who carries the raw spirit of 90s New York hip-hop culture. Since stepping into the scene in 2024, he has been building his identity through the sounds of Old School Hip-Hop, Boom Bap, and R&B, heavily influenced by the Golden Era of Hip-Hop.

Rooted in gritty Boom Bap rhythms, classic New York flows, and an uncompromising underground attitude, BiG-T represents a sound that pays homage to the golden days while keeping his presence alive in today's hip-hop movement.

Beyond his work as a recording artist, BiG-T has also established his presence as a live performer and nightclub MC. He was previously part of the MC lineup at Club Shoot RBC and has performed several times at Golden Tiger Medan. His stage experience extends beyond his hometown, including performances in Malaysia at Art of Speed and Motor Maniac. He has also shared the stage with notable hip-hop acts, including Tuan 13 at Hood Collaboration.

As part of the Medan-based rap collective 13 Clan, BiG-T appeared on their album Gotham City Metropolutan, contributing to the tracks "On the Track" and "Homeboyz". His collaborations include "Pass Da Mic" with Captain Awy and "Let Em Know" with Malaysian hip-hop group 2Mind, alongside 13 Clan.

Representing the spirit of 061 with a sound rooted in the Golden Era, BiG-T continues to carry the essence of authentic hip-hop culture through the microphone, the stage, and his music.
